1. Is your vessel, trailer and ALL equipment **clean** of all mud, dirt, plants, fish or animals and **drained** of all water including all bilge areas, fresh-water cooling systems, lower outboard units, ballast tanks, live-wells, buckets, etc. and completely **dry**?

- YES, my vessel is Clean, Drain and Dry
- No, my vessel is not Clean, Drain, and Dry. You may not launch your vessel. Your vessel must be **cleaned, drained** and completely **dry** before it will be permitted launch. Do not clean or drain your vessel near the lake or at the launch ramp.

2. Has your vessel been in any of the infested waters listed on the back of this form within the last 30 days?

- YES, my vessel has been in an infested body of water: *Go to question 3*
- No, my vessel has NOT been in an infested body of water. You are ready to launch. Complete, sign and date the bottom portion of this form.

3. If you answered YES to question 2: Has your vessel, trailer and ALL equipment been thoroughly cleaned and allowed to completely dry for at least 30 days since you last launched OR has it been professionally decontaminated?

- YES, my vessel has been Clean, Drain and Dry for 30 days: you are ready to launch. Complete, sign and date this form.
- No, my vessel is NOT Clean, Drain and Dry: **DO NOT LAUNCH.** Your vessel must be thoroughly cleaned and dried or professionally decontaminated before it will be permitted to launch.

**I affirm that my vessel does not threaten the lake with aquatic invasive species because my vessel is clean, drained, and dry and has not been in any infested waters within the last 30 days, or has been thoroughly cleaned and dry for 30 days or has been professionally decontaminated.**

Aquatic Invasive Species (AIS) threaten the health of our waters! All watercraft, fishing equipment and recreational gear that touch the water can pick up AIS. *Quagga and Zebra Mussels pose a threat to NID reservoirs! Mussels in the lake could disrupt the food chain and fishing, foul docks and ramps, encrust vessels, clog engines, clog water distribution systems and could even result in complete closure of the lake.*

**CLEAN, DRAIN & DRY**

To properly clean, drain and dry your vessel and equipment open all hatches, pull all plugs, and lower outdrive to remove any residual water. Remove all plant material or debris. Allow to thoroughly dry. More info at **nidwater.com or (530) 265-8861**
